

Agenda Item	Review of Potential Items for Next Meeting
Date	April 18, 2022
Submitting Department	Administration
Recommended Action	Consider this Review as a regular discussion item at the end of a meeting.
Strategic Vision Area and Strategy	All
Expenditure Required	none
Background Information	<p>To provide the Public and the Council more notice of topics to be discussed by the Council, staff is suggesting that the Council consider a regular agenda item that would be for scheduling purposes only. This "review of items on the next agenda" is not meant to be a formal advertisement or a restrictive list. It would be an opportunity for staff to list the items planned for the next agenda with the Council able to suggest additional items or otherwise discuss the schedule. It would not be a time to discuss the substance or merits of the items.</p> <p>While the Council has access to the internal agenda planner, the Public learns of items the Friday prior to the Monday meeting. This agenda review would be an early notification that an item <i>might</i> be on the next agenda. To minimize confusion, it would need to be made clear that items listed might not be on the next agenda and that there will likely be items not mentioned that would be on the agenda.</p>
