355 Main Street - Fire Department Training

The Winooski Fire Department will be joined by St. Michaels Fire & Rescue for a special training located at [355 Main Street](#) in Winooski on Saturday, March 6, 2021 from 8 AM – 4 PM. The building at 355 Main Street is an acquired structure set for demolition.

Training in acquired structures set for demolition allows the Winooski Fire Department to simulate real-life scenarios in unfamiliar settings, similar to the atmosphere of our service calls in Winooski. These trainings are conducted in a controlled and safe environment and provide a variety of important learning opportunities for our staff and partners. Mutual aid/emergency response partners are often asked to join, which strengthens our working relationships and operational capabilities.

Please note:

- Motorists are asked to use caution when traveling through the area.
- Pedestrians are asked to find alternative routes.
- Emergency response vehicles will elevate noise in the surrounding area.

Thank you for your patience while we complete this important training opportunity.
